

Sometimes it's easy to let things slide off your priority list, but taking care of your personal health should not be one of those...especially a non-healing wound. Wounds that linger for 30 days need the attention of a doctor who specializes in wound care. The Wound Healing Center of Bucyrus Community Hospital specializes in the latest therapies for hard to heal wounds and includes **hyperbaric oxygen therapy**. Our doctors are experts in the field and our staff is specially trained to offer a personal care program that will get you back to the life that you remember.

If you suffer from any of these conditions or symptoms, we can help:

- Diabetic wounds
- Infection
- Pressure wounds
- Gangrene
- Radiation burns
- Failing grafts & flaps
- Surgical wounds
- Wounds on lower legs or feet
- Any wound not healed within 30 days

LET US HEAL YOUR WOUND.
